

## Information Data Sheet

**Category** Grenades (British)

**Type** No. 82 Hand Grenade ('Gammon Bomb')

**Variants** -

**Dimensions** 114.3mm x 44.5mm (4.5" x 1.75")

**Weight** 2 lb

**Fuze** No. 247

**Filling** Plastic Explosive

**Material** Cast Iron

**Description** The 'Gammon Bomb' consists of a fabric bag, opened at each end. The lower end is gathered, with an elastic bag inserted around the edge, while the upper end fits under the steel cup. The edge is cupped between the cup and the flange of a tinned plate fuze housing by four equally spaced rivets.

**Function** General anti-personnel grenade, often deployed by airborne units as an anti-tank weapon.
